COILMASTER JR. PLUS

SPIEL
ASSOCIATES INC.
877-BINDERY

The Sterling® Coilmaster Jr. Plus is an automatic, table top plastic spiral binding machine. It inserts plastic spiral from the first hole onwards, then cuts and crimps automatically. This tabletop unit is affordable and can bind books from 8 mm to 30 mm. Speeds of up to 600 books per hour can be attained. The new in-feed conveyor allows for in-line binding with a coil former.

This plastic coil binder can bind books of any pitch, with round or oval holes. The margins can be slim or wide, up to 3/8" / 9.5 mm, meaning that you can pull punch pins prior to punching, and center the sheet. It can bind books of any length between 4" / 102 mm and 14" / 356 mm— not just a couple of standard sizes.

TECHNICAL SPECIFICATIONS	
Cycling Speed:	Up to 600 books p/h
Max Book Size:	14" × 12"/356 mm x 305 mm *
Min Book Size:	4.5" × 4.5/114 mm x 114 mm*
Power Supply:	110 Volt /220 Volt
Air:	90 PSI / 6.2 BAR
Weight:	167 LBS/76 kg
* Can be modified to accommodate other sizes.	

The criss-cross combs guide the coil from both the front and the rear ensuring stable coil insertion. The crimping knives create a ninety degree crimp.

The STERLING COILMASTER® JR. PLUS offers quick and easy set up and minimal table top space.
