

Sterling®
BY SPIEL ASSOCIATES INC.

Looper

The Sterling® Looper is a table top, semi-automatic double loop wire binder that can attain the speeds of more costly, floor model wire binding machines.

Place a card of cut lengths of wire into the feed tray and it will automatically feed one piece of wire at a time on to the pins for hanging. Hang the book on the wire, then move the book to the closing station to close the wire. 3:1 books can be bound with automatic feeding from the cards of wire. 2:1 books may be bound manually by placing the cut length of wire on the pins.

Bind books from 1/4" up to 1 1/2" in diameter. Speeds of up to 600 books per hour can be attained.

TECHNICAL SPECIFICATIONS	
Max Speed:	600 Books Per Hour
Min Binding Length	7" / 178 mm
Max Binding Length	12" / 305mm
Wire Closing	3/16" - 1 1/2" - 14"/356mm Binding Length
Wire Feeding	3/16" - 9/16"- 12"/305mm Binding Length
Floor Space	36" X 30" X 25" / 914x762x635mm
Weight	191 LBS./87KG
Electrical:	110V/60Hz/4 Amps
