Wiremaster Compact

SPIEL
ASSOCIATES INC.
877-BINDERY

The Sterling Wiremaster Compact is a game changer when it comes to wire binding machines. The Wiremaster Compact is a fully automatic double loop wire binder capable of binding up to 2,000 books per hour. The machine is only 8.5' (215 cm) long and sells for about the same price as a top tier semi-automatic wire binder. It changes over in about twenty minutes. The operator drops a book on the conveyor and the Wiremaster Compact does the rest. That's right- it cuts and inserts the wire, closes the wire, and delivers the book onto a conveyor. An automatic cover flipper is available.

TECHNICAL SPECIFICATIONS
