

The Sterling Wiremaster Pro combines both economy and complete automation. The Wiremaster Pro is a fully automatic double loop wire binder capable of binding books at the brisk pace of 3,000 per hour. It changes over in about twenty minutes. The operator drops a book on the conveyor and the Wiremaster Pro does the rest. That's right– it cuts and inserts the wire, closes the wire, and delivers the book onto a conveyor. An automatic cover flipper is available. Speed up your wire binding with this most, affordable machine.
