

STERLING WIREMASTER COMPACT AUTOMATIC DOUBLE LOOP WIRE BINDING MACHINE

The Wiremaster Compact is a fully automatic double loop wire binder capable of binding books at the brisk pace of 2,000 per hour. The machine is only 8.5' (215 cm) long and sells for about the same price as a top tier semi-automatic wire binder. It changes over in about twenty minutes. The operator drops a book on the conveyor and the Wiremaster Compact does the rest.

That's right — it cuts and inserts the wire, closes the wire, and delivers the book onto a conveyor. An automatic cover flipper is available as well as a near line in-feed conveyor. Speed up your wire binding with this most, affordable machine.

The Sterling Wiremaster Compact is a game changer when it comes to wire binding.
